

# Michael Bruno

Columbus, Ohio | MichnBruno@gmail.com | [mbruno-projects.com](https://mbruno-projects.com) | [github.com/michnbruno](https://github.com/michnbruno) | [LinkedIn](#)

## PROFESSIONAL SUMMARY

Senior Software Developer with 15+ years experience building enterprise and line of business sized applications. Experienced in cloud migrations, full-stack .NET and SPAs development and integrations. Ability to work in both development and leadership roles.

## TECHNICAL SKILLS

### Languages & Frameworks

C# (10+ yrs), .NET 8/Core (10+ yrs), Entity Framework (10+ yrs), JavaScript/TypeScript (8+ yrs), React, Angular

### Cloud & Infrastructure

Azure PaaS (10+ yrs), Azure Functions, Container Apps, Bicep IaC, YAML/GitHub Pipelines, Azure DevOps

### Database

SQL/T-SQL (10+ yrs), Azure SQL, SQL Server, Database Design, Performance Optimization

## TECHNOLOGIES & COMPETENCIES

### Cloud & Architecture

Microservices Architecture, Serverless Patterns, Infrastructure as Code, Cloud Migrations, RESTful APIs

### Integration & Security

JWT Auth, OAuth, CORS, Third-Party APIs, Authentication Systems

### Leadership & Process

SAFe Agile, Architecture Design, Team Leadership, Technical Strategy, AI Tool Evaluation

## PROFESSIONAL EXPERIENCE

### Career Break / Professional Development

Nov 2024 – Present

- Stepped away from full time professional work to focus on various personal projects and responsibilities
- Assessing and upskilling with AI-assisted development tools (such as Claude, GitHub Copilot). And furthering learning with modern architecture patterns including event-driven, serverless, and deployment workflows

### Development Lead / Senior Developer

Mar 2021 – Nov 2024

Daugherty Business Solutions (Columbus, OH - Remote) & Lincare (Clearwater, FL)

- Served as Dev Team Lead on modernization project converting Java APIs to Spring Boot and frontend to React; led separate Azure migration for internal application (APIs, angular SPA, database, authentication)
- Maintained and extended legacy .NET applications during Azure migration; provided production support for critical document management system

## Development Lead / Platform Adoption Leader

*Jun 2016 – Mar 2021*

Magenic Consulting (Minneapolis, MN - Remote)

- Team Dev Lead on two separate enterprise SAFe Agile projects for Fortune 500 clients migrating to Azure cloud
- Built data-driven APIs/platform handling multiple schemas with Azure storage, ETL processing, and multi-party reporting for global accounting firm
- Managed distributed onshore/offshore development and assisted with designing system integrations
- Part of platform adoption team that performed solution architecture reviews, and facilitated communications with onboarding teams to accelerate productivity with platform

## Senior Application Developer

*Jan 2013 – Feb 2016*

LBrands/Victoria's Secret, Gannett Fleming, Contract Projects

- Worked on a .NET MVC inventory management system and a GPS-enabled .NET mobile/tablet incident management application for highway service vehicles
- Upgraded legacy .NET and revised data access patterns to optimize database performance

## EDUCATION

---

Bachelor of Science, Economics – University of Cincinnati

## PORTFOLIO & CODE SAMPLES

---

Live Portfolio: [mbruno-projects.com](https://mbruno-projects.com) – AI Tools Assessment, Event-Driven Architecture, Generic CRUD API, SPA Framework Comparison

GitHub: [github.com/michnbruno](https://github.com/michnbruno) – Azure deployments, Kubernetes configurations, authentication systems

Personal Site: [michb.net](https://michb.net) – Professional background and additional work samples
